## PFW PartFinder

PFW offers your dealership a FREE service through PFW PartFinder to initiate part sales worldwide. PartFinder – <http://partfinder.pfw.com> – is the best search tool on the web to find and sell used, discontinued or specialty equipment parts.

This internet service enables part-surfers to find parts through a full or partial part number, location or wild card search and then contact the Dealers that offer the sought-after part. Simply contact Kyle Schultz, PFW Support Specialist, to coordinate your hassle-free set-up. Within a few days, your inventory will be part of the millions of parts waiting to be purchased!

Our FREE SERVICE automatically generates a monthly list of your dealership's obsolete parts – those that have not sold in the last 12 months – and then posts them on PFW PartFinder along with information on how to contact your dealership (single contact person allowed).

### Want more?

Our EXTENDED SERVICE automatically generates and posts any parts your dealership wants – from the entire inventory list to discontinued and specialty parts – with the option of posting price and multiple contacts. Additionally, the EXTENDED SERVICE allows PartFinder to launch directly from your website and lets your customers search only your specific inventory.

Join for FREE and enjoy automatic obsolete parts uploads or sign up for PartFinder's EXTENDED SERVICE and take advantage of the additional features for only \$45 a month.

To register, contact Kyle Schultz at [schultz@pfw.com](mailto:schultz@pfw.com) or call 519.474.3700.

For more information on these software features or to order R6V05, contact PFW Client Services at (519) 474-3700, or e-mail [support@pfw.com](mailto:support@pfw.com).

The screenshot shows the PFW PartFinder website interface. At the top, there is a navigation bar with 'Member Login', 'Search Now!', 'News/Info', 'Dealer List', 'Supplier List', and 'Register'. Below this is a search bar with the text 'Find the parts you need, when you need them.' and a search form. The search form includes fields for 'Desired Part Number' (2335), 'Minimum Quantity' (1), and 'Located In' (All North America). There are also radio buttons for 'Exact' and 'String' search, and a note that 'String search will be slower.' Below the search bar is a blue banner for 'PFW Systems Corporation'. The main content area shows 'Search Results 2335' and 'Your Request Has Returned 25 Result(s)'. The results are displayed in a table with columns for Part #, Location, Description, Vendor, Quantity Available, Dealer, Contact Name, and Phone Number. Each result includes a 'Click for phone number' link and a 'Dealer Details' link.

Part #:	Location:	Description:	Vendor:	Quantity Available:	Dealer:	Contact Name:	Phone Number:
