## Invoice History Display Screen

The invoice history display screen has been changed to allow a search for invoices across all branches at once. In the past, it may have taken extra time to find the right invoice if the user did not know from which branch the invoice was generated. Rather than have to perform multiple searches, one branch at a time, the user can now key 'AA' in the Br# search field. The user can further narrow down the search by specifying another search field, such as Customer#.

Since Br# may no longer be a constant among the list of invoices, the branch value has been added to the screen in the alternate view. Just press F11= Chg View to see the branch to which the invoice belongs.
