Effective in R6V01: User Group Security Enhancements

New authority options have been added to User Group Security in the PFW Dealership Management System:

Equipment History

A user group can be prevented from viewing any equipment history by setting the Authorize switch to N for system number 018 (zero-one-eight), Equipment Maintenance (Fig. 1).

```

Equipment Invoicing and Quoting

A user group can be prevented from accessing Equipment Invoicing and Equipment Quoting.

If the user group does not have authority to access equipment invoices or equipment sales quotes, these items will not be displayed in the option list that is presented, and various options throughout the system will be restricted.

```
