New in R6V04

Multi-line Labor Entry Window in Service Supervisor

Users can now enter multiple labor transactions on the Labor Entry screen that is accessible from the Supervisor - Labor In Progress window (Fig 1). Previously, users could key in only one transaction at a time.

Now, from the Supervisor - Labor In Progress screen, the user clicks on the "Click here to add labor hours" link. The user can then key in multiple labor transactions for any number of work-order repairs. A running total for both Hours Worked and Hours Charged displays to help those users who want to track the total hours keyed (Fig 2).
