New in R6V04

Quick-closing Work Orders in One Place

New with R6V04, you can now quick-close one or more work orders simultaneously within IntelliDealer.

On the Open Work Orders view, simply click on the “Quick close work orders” link and the Close Work Orders screen will appear (Fig 1). On the Close Work Orders screen, select the open work orders you would like to close by keying in your search criteria in the fields provided (Fig 2). In the example, all type “SC” -- shop customer -- work orders have been selected (Fig 3). Simply place a check mark next to the work orders you wish to close and click on the “Close Work Orders” button (Fig 4).

Order Number	Customer	Machine	Description	Make/Model	Machine Serial #	Date Added
C86398	BRUCE THOMSON	TRACTOR	quote	JD 165	MO0165X374121	07/05/2005

As with the standard close of a work order, you may be prompted with subsequent screens such as an authorization window or warranty information window. Once these prompts have been answered, all repairs on the work order will be set to a status “C” (closed).

For more information on these software features and others, contact PFW Client Services at (519) 474-3700, or e-mail support@pfw.com.

CNH Base and Options Update

PFW has been informed by CNH that it is their intention to make available to CNH dealers equipment base and options details. They are currently in beta testing at selected CNH dealers, and once they are comfortable with the process they will provide the details on what is available.

It is PFW’s intention to allow the dealer to get the data directly through an interface to CNH. At this point, the time frame is unknown regarding availability, but PFW wanted to notify dealers of this upcoming ability. If any changes occur in the status of this project, we will notify our CNH dealers.
