New Enhancements for R6V06

Search Work Order and Parts Quotes By Description

A Select Description (Fig. 1) field has been added to the Work Order Quoting and Parts Quoting search screens. This will allow users to search for Work Orders or Parts Quotes in the Description field of the quote header. This will be a “contains” search, meaning any quote with a description containing the string of characters keyed in the Search Description field will display.

Fig. 1

Reference Number	Customer	Salesperson	Description	Location	Expiry Date	Status
003884	Doug Prout	Doug Jackson	Inspection	Guelph	02/15/2008	Pending
003921	Doug Prout	Rich Plater	Inspect engine	Guelph	02/24/2008	Pending
003923	Doug Prout	Rich Plater	Inspect exhaust	Guelph	02/24/2008	Pending

No Prefix on A/P Check Numbers

The division number on an A/P Check (Fig. 2) will no longer print as a prefix next to the check number. This prefix has caused confusion with users and banks alike when comparing the printed check number with the MICR check number or with the check number stored in the system.

We are also removing the requirement for the user to prefix a Rapid Remittance or Quick Check with an “R” for the same reason we are not printing the division as a prefix to the check number.

Fig. 2
