

## Business never stops. Neither does PFW IntelliDealer.

The demands of sales, customer service, rental, financial management, maintenance and product support require the equipment distribution industry to run 24/7 – and you need your business solution to do the same.

When you choose PFW's IntelliDealer Dealership Management System, you can also choose between having your solution hosted on-site on a server or remotely in an ADP-powered Application Service Provider (ASP) environment. Either way, you get industry-proven reliability. Either way, you win.
