September 2009

New for R6V07 – Parts Profile and Ordering Enhancements

Additional Information Section Added to Parts Profile

An “Additional Information” section has been added to the Parts Profile screen (Figure 1). This displays key information about the part without having to drill down to the Ordering Information tab where this information can already be found.

Drag And Drop Parts Profile Information

Users can now “drag-and-drop” the Sales Summary, Availability/Ordering Information, and Additional Information sections on the Parts Profile screen (Figure 2) to suit their viewing needs. This customized view is saved by user.

Receipt Totals Show in Parts Ordering Totals Window

The Totals window that displays when the “Total” button is pressed in Parts Orders Maintenance now shows Received totals (Figure 3).
