Rental Reporting Enhancements

Comparison Data in Rental Supervisor

A Comparison Date Range has been added to the Revenue & Costs tab on the Product Support » Rental » Supervisor option (Figure 1).

Figure 1

The various views will display not only revenue and costs for the Selected Date Range but also similar data for the Comparison Date Range keyed (Figure 2).

NOTE: The Utilization report has been removed, since the same data can be generated from the Utilization tab in the Product Management » Rental » Supervisor option.

IMPORTANT ANNOUNCEMENT FOR ALL JOHN DEERE DEALERS

All John Deere dealers should have already received communications from John Deere on the replacement of the JDWIN Warranty Interface by the **John Deere WINXML Warranty Interface**. John Deere will be utilizing an SAP Warranty product for the handling of warranty processes and that is the main reason for this new interface.

The PFW R6V07 release (IntelliDealer only) is the only release where this new interface will be supported. All PFW clients should upgrade to R6V07 to ensure they are ready once this product has gone through the proper product testing process.

According to timelines coordinated with John Deere, the suggested beta dealer testing for the **John Deere WINXML Warranty Interface** began in March and the estimated general release will be in May 2010.

We have also heard that in the future, John Deere will be discontinuing the **JDWIN** interface.

Please call your PFW sales representative for pricing on this new interface or if you have any questions.
